## PORTSMOUTH, N. H.

Located on State Street in the heart of the City.

### PORTSMOUTH, NEW HAMPSHIRE

Was settled in 1623 by David Thompson, a Scotchman, at Odiorne's Point, at the entrance of the Piscataqua River. The city is now located three miles from the sea on the southwest bank of the river. It was the capital of the province of New Hampshire prior to the Revolution. From the early days of its history, Portsmouth has been a ship-building town.

The whole region is a noted ocean summer resort, with the Rockingham Hotel located in the heart of Portsmouth over 5,000 touring automobiles pass through Portsmouth daily in the summer time, en route either to Maine resorts and the White Mountains, or returning. The Shore Boulevard is one of the two roads leading from Portsmouth toward the south. A steamer sails from Portsmouth daily, in the summer, to the Isles of Shoals, seven miles at sea. They are widely known through the writings of Celia Thaxter, who lived on one of them, and were visited by Captain John Smith in 1614. Conventions are held on the islands in July and August. The daily candle-light service is noted.

Portsmouth is widely known for its fine examples of Colonial architecture, and particularly its doorways and carved woodwork. It probably has more interesting Colonial doorways than any other city or town in New England.

The leading industry is the Navy Yard, which is more than one hundred years old. It is reached by a government ferry from the foot of State Street, or by crossing the bridge to Kittery Point. At the Navy Yard are to be seen the building in which the Peace Treaty between Japan and Russia was signed in 1905, the Commandant's residence in which Admiral Farragut died, and the Atlantic coast Naval Prison. The spot on the floor of the Supply Building, where the Portsmouth Treaty was signed, is marked by brass clasped hands and brass disks set in the floor. Among the ships stationed, refitted or built here were the

"Constitution," the "Kearsarge," and Admiral Farragut's flagship, the "Franklin." Lieutenant A. W. Greeley and his five fellow survivors of his ill-fated Arctic expedition recuperated here. Admiral Cervera and 700 Spanish sailors were kept here following the battle of Santiago in the Spanish-American war, in which they were captured. It is now the Atlantic submarine construction and repair base of the Navy. It is noted for producing submarines at a lower cost, in quicker time and with better workmanship than any other yard, public or private, in the country, the shipbuilding traditions of the region contributing to its efficiency. Fishing is an industry.

A new two-million dollar bridge spans the Piscataqua River to Kittery Point, Maine, in memory of American soldiers and sailors, at the expense of the Federal government, the states of New Hampshire and Maine and the city of Portsmouth. Owing to the fact that the average depth of the water is from 40 to 60 feet, Portsmouth Harbor is the deepest on the Atlantic coast. The sinking of the bridge piers was an unusually difficult engineering feat and involved the use of caissons at a depth of 80 to 90 feet under the surface of the water. This bridge now provides a new route into Maine.

At New Castle, New Hampshire, is Fort William and Mary, now Fort Constitution, built about 1630. On the night of December 14, 1774, this fort was attacked by a party of patriots and fifteen barrels of gunpowder seized. It was afterwards used at Bunker Hill.

Building was the first square three-story house in New Hampshire and is of unusual architectural interest. Hall is a reproduction of a hall in house of Captain Moffat's father in England. Some of the wood carvings were done by Grinling Gibbons, celebrated English architect. Whole house is furnished as the home of a well-to-do family of the eighteenth century. HERE is what Peter Cooper, who died worth many millions, said of a local newspaper and Directory: "In all towns where a newspaper and Directory are published, every man should advertise in them, if nothing more than a card stating his name and the business he is in. It not only pays the advertiser, but it lets the people at a distance know the town in which you reside is a prosperous community of business men. As the seed is sown so the seed recompenses. Never pull down your sign while you expect to do business."—Exchange.

# What's in a Name?

W. A. Greenough established a directory business under his own name in 1862 and since that time, 66 years ago, we have carried his name. The present Corporation of W. A. Greenough Co. succeeded W. A. Greenough & Co. in April, 1923, and are publishing the same directories under the "Greenough" system, so well known all over New England.

The Green "O" is a distinctive sign in the Directory business and carries service second to none.

No Directory Library is complete without it.

We have experienced foremen and employees in every department and we spare no efforts in improving the service furnished with this name.

Recognizing the value of a House Directory, we were among the pioneers to include that additional service in the single volume, and we furnish the wives' names in all our publications.

# Down The Road To Independence

---

He who is overly anxious to put you on the right road to immediate financial independence by "investing" in his promotion might be leading you on a short journey to the poor house.

Last year credulous people placed a lot of confidence and about a Billion Dollars of their money in promises of quick riches. These people who invested heedlessly and succumbed to high pressure selling schemes will pass many a milestone along the "promised road to independence" trying to find a trace of their hoped for riches.

There is one road to safety from swindlers that's being tread daily to the extent of 1000 people a month seeking the facts about new, unknown, or questionable offers made to them—this is the road that leads to the door step of the

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

All members of this Association have subscribed to the following

## STANDARDS OF PRACTICE

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

**\$100 REWARD** will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.
